Approximate time of assembly: 15 minutes

Skid plates are made to protect the vital components of your bike and does not have a «life warranty». If you notice a defect on your skid plate at reception, please write to contact@axpracing.com

Off-road riding involves significant stresses and risks of impact on the motorcycle and its components. AXP Racing products are designed to improve protection and durability; however, they cannot be considered a foolproof guarantee against damage. AXP Racing accepts no liability for damage resulting from use, impact, or misuse.

Follow the steps

1

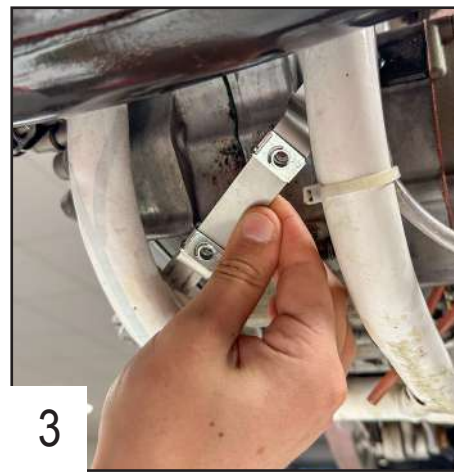

Place 2 clamped bolts on the front fixation.

Placez 2 écrous-pinces sur la fixation avant.

2

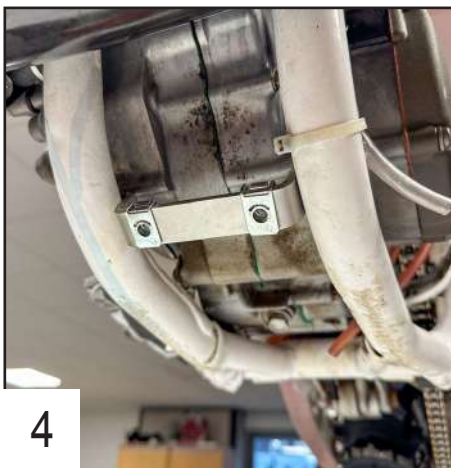

Place 2 plastic hooks on the rear of the plate with TFHC 6x35mm screws + M6 washers and bolts.
Placez 2 crochets à l'arrière avec 2 vis + rondelles et écrous.

3

Place the front fixation behind the frame rails.

Placez la fixation avant derrière les tubes du cadre.

4

Place the front fixation behind the frame rails.

Placez la fixation avant derrière les tubes du cadre.

5

Clip the hooks on the frame's tube.

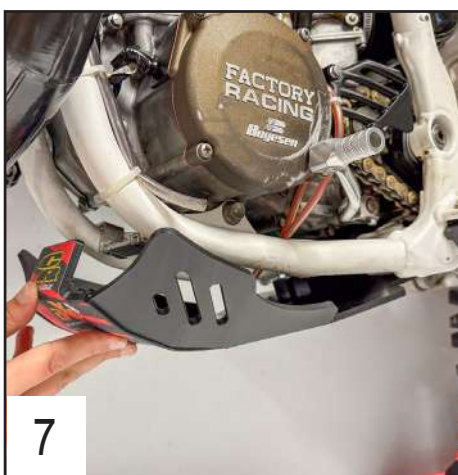

Clipsez les crochets sur le tube du cadre.

6

Adjust the front fixation's height.

Ajuster le placement de la fixation avant.

7

Lift the plate up against the frame.

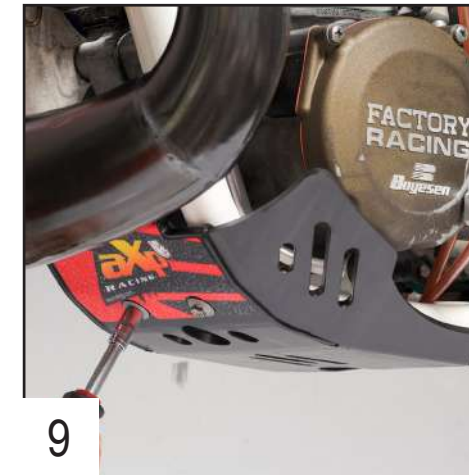

Relevez le sabot contre le cadre.

8

Use the hole to maintain the fixation with one finger and place 2 THF 6x25mm screws.

Utilisez le trou pour maintenir la fixation avec un doigt et placez 2 vis.

9

Tighten the front screws.

Serrez les vis à l'avant.

You're all ready to ride !
