

AX1809

Rear rack

Suzuki DR-Z4S

What's in the box ?

- 1 PM01-05-043 - Plate
- 1 PM01-04-319 - Right arm
- 1 PM01-04-320 - Left arm
- 6 NE01-03-001 - M6 washers
- 6 NE01-04-003 - EM6F bolts
- 2 NE01-02-004 - TFHC 6x30mm screws
- 2 NE01-02-005 - TFHC 6x35mm screws
- 2 NE01-02-007 - TFHC 6x45mm screws
- 2 NE01-02-008 - TFHC 6x50mm screws
- 2 NE10-01-012 - Alloy spacers 16x6,5x20
- 2 NE10-01-013 - Alloy spacers 16x6,5x10
- 2 NE05-01-002 - Plastic spacers 8,2x16x5

Approximate time of assembly: 30 minutes.

The paper instructions may be limited, scan the QR code to watch the tutorial video online.

Rear rack do not have a « life warranty ». However, production default may happen and we cover it during the first year of use.

In case of premature breakage, please write to contact@axpracing.com

Off-road riding involves significant stresses and risks of impact on the motorcycle and its components. AXP Racing products are designed to improve protection and durability; however, they cannot be considered a foolproof guarantee against damage. AXP Racing accepts no liability for damage resulting from use, impact, or misuse.

Assembling instructions

1

Place the left arm under the plate and fix it using a TFHC 6x30mm screw + M6 washer and bolt.

Placez le bras gauche sous le plateau et fixez le en utilisant une vis de 30mm + rondelle et écrou.

2

3

Use a TFHC 6x35mm screw + M6 washer and bolt at the rear.

Utilisez une vis de 35mm + rondelle et écrou à l'arrière.

4

Repeat the operation on the other side and tighten all the screws.

Répétez l'opération avec l'autre bras et serrez toutes les vis.

5

6

Remove the OEM screws on both sides.

Retirez les vis d'origine de chaque côté.

7

If you don't have fixation holes in the rear fender, you need to drill them following the holes under the bike.

Si vous n'avez pas de trous dans le garde boue arrière, il faut les faire en suivant la fixation en alu sous la moto.

8

Drill the holes before installing the rear rack.

Percez les trous avant d'installer le porte paquet.

9

Place the 20mm spacers on each side of the rack.

Placez les entretoises de 20mm de chaque côté du porte paquet.

10

Place the rack on the rear fender and slide it forward to align the holes with the fixations on each side of the bike.

Placez le porte paquet sur le garde boue arrière et glissez-le vers l'avant pour aligner les trous avec les fixations de chaque côté de la moto.

11

12

13

Use a TFHC 6x50mm screw to maintain the rack on each side.

Utilisez une vis de chaque côté pour maintenir le porte paquet en place.

14

Place two 5mm thick spacers on top of the alu fixation system of the bike.

Placez 2 entretoises de 5mm sur la fixation en alu de la moto.

15

16

Lift the rack and place two 10mm spacers on the holes of the fender.

Soulevez le porte paquet et placez 2 entretoises de 10mm sur les trous du garde boue.

17

Bring the rack back down on the spacers.

Remplacez le porte paquet sur les entretoises.

18

Place 2 TFHC 6x45mm screws in the holes.

Placez deux vis dans les trous de fixation.

19

Use the M6 washers + bolts to maintain the screws.

Utilisez deux rondelles et écrous pour maintenir les vis.

20

Tighten the screws.

Serrez les vis.

21

Tighten the screws on each side of the bike.

Serrez les vis de chaque côté de la moto.

22
